■ **Strike Lock**
Model:SP-110SL

Electric Strike lock also called Fail-Secure locks, high performance designed for low profile openings where there is limited space behind the jamb. Its strength is derived from a unique keeper pin locking design, enabling the 5000 to exceed the ratings of the frame, door, and locking hardware. This field selectable fail secure/fail safe unit is easy to install and accommodates latch bolts up to 5/8 inch throw.

Fail-secure type (Power to unlock)

Long-type Electric Strike lock strike look closed in the normal case and open when we connect the power to it

Specifications:

- Lock Size: 250Lx25Wx34H(mm)
- Strike Structure: Stainless Steel
- Holding Force: 400kg
- Voltage: DC12V
- Current: 240mA
- Surface Temperature: Within +20°C
